Hi, I am Jiten patel and I am experienced Full Stack Developer with 2.5 years of experience. Expert in Next.js with experience in versions above Next.js 12. Skilled in React, Node.js, php.

■ EXPERIENCE

Full-Stack developer

Dogratech january 2022 - Present

E-commerce Platform Development

- Technologies Used: Next.js, Node.js, PHP, MySQL, Stripe API
- Description: Developed a full-stack e-commerce platform using Next.js for the frontend and PHP for backend API services. Integrated a MySQL database to handle product listings, user accounts, and order management. Enhanced the user interface with dynamic content rendering and optimized server-side rendering (SSR) to improve load times and SEO. Collaborated with a cross-functional team to deploy the platform on AWS, ensuring high availability and scalability.

Real Estate Listing Platform

- Technologies Used: Next.js, PHP, Google Maps API, MySQL
- Description: Developed a comprehensive real estate listing platform that allows users to search for properties based on various criteria, including location, price, and property type. Utilized Next.js for the frontend to create a fast and responsive user interface, and PHP for backend development to handle data processing and server-side logic. Integrated Google Maps API to provide interactive map features, allowing users to view property locations, nearby amenities, and calculate travel distances. Managed property data and user interactions with a MySQL database, ensuring efficient data storage and retrieval. Focused on delivering a seamless user experience with optimized loading times and mobile-friendly design.
